The diagram illustrates various lock components and their application areas. At the top left, two keys are shown, labeled 1 and 3. Below them are four small lock components labeled 12, 10, 6, and 36. To the right of these is a spring component labeled 16, and a larger component labeled 40. Below these are two more components labeled 17 and 53. At the bottom left, there are four components labeled 21, 47, 18, and 48. To the right of these are four components labeled 22, 50, 20, and 19, with 19 and 30 connected by a line. In the center, a large box contains four sub-diagrams labeled 5, 11, 23, and 35, representing different assembly areas: IGNITION, DOOR, DECK LID, and GLOVE BOX. Each sub-diagram shows the specific lock components and keys to be installed in that area.

Diagram illustrating the vehicle's emission control system components and their connections. Key components include: MAP sensor, EGR transducer, filter, throttle body, heated air diaphragm, heated air temp sensor, PCV valve, valve cover, pressure relief/rollover valve, fuel tank, vapor canister, and air injection aspirator. The diagram shows the flow of air and fuel through the system, including connections to the intake manifold, throttle body, and various filters. A dashed line indicates optional vacuum operated accessories.
