HOW TO USE THIS CATALOG AND LOCATE PARTS

This Catalog is divided into Part Groups in which illustrations for parts of a similar function and/or location are published. The Group Contents listing on the next page shows the type of parts contained in each group. Tabs are provided or available to separate each group.

Option 1: From the Group Contents listing, select the group which would most logically contain the part to be found. Or open the catalog to Group 1, Master Group Illustration Index. Select the illustration group most likely to contain the parts associated. Turn to the Illustration Index in front of that group to select illustration and locate the parts item numbers and associated text information.

Option 2: If the “noun” name of the part you seek is known, an alphabetical index of nouns and illustration titles is provided to assist in finding the part. Several keys may be found in this index.

RESERVOIR Power Strng. Oil Pump Group **19**

ALTERNATOR, 3.3L Engine **8-200**

STARTER **08 105 4**

Group _____
Illustration No. _____
Item _____

Group Reference

Illustration Reference

Illustration/Item Reference

Option 3: If the part number is known but the applications need to be determined, refer to the numerical index. This index shows the group, illustration number and item for each part listed in the catalog. Multiple references mean the part is listed more than once.

Group 9

Contains Engine by Type

9F ENGINE = 2.5L (6 Cyl.)
9E ENGINE = 2.4L (4 Cyl.)
9A ENGINE = 2.5L (4 Cyl.)
9P ENGINE = 2.0L (4 Cyl.)
9B ENGINE = 3.3L & 3.8L, 2.5L (V6)
9C ENGINE = 3.0L (V6)

Group 23

Contains Exterior Ornamentation
(E = Exterior Ornamentation)

EPL = Ext. Orn. PL-Body
EJA = Ext. Orn. JA-Body
ENS = Ext. Orn. NS-Body
EJX = Ext. Orn. JX-Body

Group 23A

Contains Sheet Metal Body
(S = Sheet Metal Body)

SPL = Sheet Metal PL-Body
SJA = Sheet Metal JA-Body
SNS = Sheet Metal NS-Body
SJX = Sheet Metal JX-Body

Group 23C

Contains Doors
(D = Doors & Related Parts)

DPL = Doors PL-Body
DJA = Doors JA-Body
DNS = Doors NS-Body
DJX = Doors JX-Body

Vehicle Safety Certification Label

VEHICLE SAFETY CERTIFICATION LABEL

A vehicle safety certification label is attached to the rear facing of the driver's door. This label indicates date of manufacture (month and year), Gross Vehicle Weight Rating (GVWR), Gross Axle Weight Rating (GAWR) front, Gross Axle Weight Rating (GAWR) rear and the Vehicle Identification Number (VIN). The Month, Day and Hour of manufacture is also included.

All communications or inquiries regarding the vehicle should include the Month-Day-Hour and Vehicle Identification Number.

INTERNATIONAL SYMBOLS

Some International Symbols are used to identify controls and displays in this vehicle. These symbols are applicable to those controls which are displayed on the instrument panel or in the immediate vicinity of the driver (see below).

International Symbols

HIGH BEAM	FOG LIGHTS	HEADLIGHTS, PARKING LIGHTS, PANEL LIGHTS	TURN SIGNAL	HAZARD WARNING	WINDSHIELD WASHER
WINDSHIELD WIPER	WINDSHIELD WIPER AND WASHER	WINDSCREEN DEMISTING AND DEFROSTING	VENTILATING FAN	REAR WINDOW DEFOGGER	REAR WINDOW WIPER
REAR WINDOW WASHER	FUEL	ENGINE COOLANT TEMPERATURE	BATTERY CHARGING CONDITION	ENGINE OIL	SEAT BELT
BRAKE FAILURE	PARKING BRAKE	FRONT HOOD	REAR HOOD (TRUNK)	HORN	LIGHTER

ILLUSTRATION INDEX

This index is a compilation of catalog parts description data with reference to illustrations, figures and key numbers as shown:

ILLUSTRATION INDEX	GROUP	ILLUS. NO.
THROTTLE BODY		14-600

The first page of each group contains a listing of all illustrations within that group. Also refer to illustrations alphabetically listed in information section.

ALPHABETICAL INDEX

This index is a compilation of catalog parts description data with a reference to the location of the item by group – Figure and key number as shown in the following example:

THROTTLE BODY	14 - 610/	18
Group		
Illustration No.		
Item		

The index will be expanded progressively as data is added to computer files. To locate a part by name, refer to the Alphabetical Index. This index indicates the group and illustration and item number where the part is located. Alphabetical Index can be found in INF section of catalog.

NUMERICAL INDEX

A listing of Part Numbers contained in the catalog. The numbers are in numerical sequence with reference to the group and illustration and item number where the part is located.

PARTS PACKAGES

Service Parts Packages, containing all parts needed for specific service operation, are listed in their respective groups with related parts. The listing will show adaptability and model application.

STANDARD PARTS

Important attaching standard parts such as bolts, nuts, etc. are generally listed in the text of the respective major parts groups.

CATALOG AND PARTS BULLETINS

BULLETINS are issued when important changes are made in production or when corrections are to be made in the Parts Catalog between regular revisions. All catalogs should be noted and changed accordingly to remain current between revisions.

PARTS CATALOG REVISION SERVICE

Subscribers to the Passenger Car Catalog Revision Service will be periodically provided with revised copy incorporating the latest information. Revisions may be provided by Group or complete book copy.

PAGE NUMBERING

Two-part page numbers are used throughout this catalog. The first part of the page designation indicates one major group or section. The second part indicates the actual page number in the group. For example:

- 2-1 indicates Group 2, Front Suspension, Page 1
- 4-4 indicates Group 4, Parking Brakes, Page 4

In the maintenance of the Loose Leaf Parts Catalog Revision Service, it may become necessary to add information beyond the capacity of the page. In this event, an "A" page will be used. For example, if it becomes necessary, because of change, to add several part numbers to page 2-1 and space does not permit the addition, you will be given Page 2-1A. Page 2-1A should be filed immediately following Page 2-1.

Figure and Item Numbers are also commonly used to identify locations in this Catalog, i.e., 14-910/8 refers to Group 14, illustration 910, Item Number 8. Illustration Numbers are always ascending sequential within the Groups.

RIGHT AND LEFT PART NUMBERS

Right and Left part numbers are frequently combined on one line, e.g., 3514 444-5. Such numbers are interpreted as 3514 444 Right side application and 3514 445 Left Side. Right and Left Sides are always determined by their relationship to the driver when normally seated and looking forward.

SYMBOLS USED IN THIS PARTS CATALOG

The following symbols are commonly used with Part Number and quantity information in this Catalog:

BOLD TYPE – European only.

AR – Indicates the quantity required may vary or is to be determined by the user.

PAR – Indicates Paint As Required.

— – Indicates Item Not Illustrated.

SPECIFYING INFORMATION

The following information is included in this Parts Catalog:

1. Part Name.
2. Part Number.
3. Model Application.
4. Quantity used per vehicle.
5. Description and dimensions necessary for proper identification of parts where necessary.
6. Model or Engine Column:
Engine by Displacement or Vehicle Model Code,
Body Style Code or Price Class.
7. Effective points of model year running changes are indicated by vehicle serial number, engine number or body number where applicable. When serial number effective points are not available, production effective dates are used. (Refer to the Federal Certification Label for the build date.)
8. Parts designated as CANADA or EXPORT are not available through U.S. parts outlets.

In the event replacement parts not listed herein are required due to a special service situation, Chrysler Dealers should contact their factory specifier for assistance. Problems encountered with particular part specifications can be resolved in the same manner.

Figure 9P-712

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The main housing (1) is shown with various internal and external parts. Key components include:

- 1**: Main housing or base plate.
- 2**: Bolt for the bottom flange.
- 3**: Bottom flange or gasket.
- 4**: Bolt for the bottom flange.
- 5**: Cable or hose connection.
- 6**: Lever or handle mechanism.
- 7**: Gasket or seal for the bottom flange.
- 8**: Bolt for the top flange.
- 9**: Lever arm or handle.
- 10**: Gasket or seal for the lever arm.
- 11**: Bolt for the lever arm.
- 12**: Cylindrical component, possibly a filter or reservoir.
- 13**: Cap or cover for the cylindrical component.
- 14**: Bolt for the cap.
- 15**: Gasket or seal for the cap.
- 16**: Flange or cover plate.
- 17**: Gasket or seal for the flange.
- 19**: Bolt for the top flange.
- 20**: Washer or spacer for the top flange.
- 21**: Bolt for the top flange.
- 22**: Bolt for the top flange.
- 23**: Bolt for the top flange.
- 24**: Bolt for the top flange.
- 25**: Gasket or seal for the top flange.
- 26**: Bolt for the top flange.

Figure 9P-811

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or engine component. The parts are numbered 1 through 14:

- 1**: A small, irregularly shaped gasket or seal.
- 2**: A small bolt or screw.
- 3**: A long bolt or screw.
- 4**: A small bolt or screw.
- 5**: A small bolt or screw.
- 6**: A small bolt or screw.
- 7**: A large, complex cast part with multiple mounting points.
- 8**: The main cylindrical component, possibly a pump housing or cylinder, with several ports and mounting brackets.
- 9**: A small bolt or screw.
- 10**: A long, thin bracket or arm.
- 11**: A long, thin bracket or arm, similar to 10 but with different mounting features.
- 12**: A small bolt or screw.
- 13**: A small bolt or screw.
- 14**: A small bolt or screw.

The diagram shows how these components fit together to form the complete assembly.

Figure 9F-1010

This diagram illustrates the assembly of a rear door latch. It features two main configurations: a 'MANUAL' version and an 'AUTOMATIC' version. The components are numbered as follows:

- 1:** Latch body
- 2:** Pin
- 3:** Pin
- 4:** Pin
- 5:** Latch housing
- 6:** Latch body
- 7:** Latch housing
- 8:** Latch body
- 9:** Latch housing
- 10:** Latch body
- 11:** Pin
- 12:** Pin
- 13:** Pin
- 14:** Pin
- 15:** Pin
- 16:** Pin
- 17:** Pin
- 18:** Pin
- 19:** Pin
- 20:** Pin
- 21:** Pin
- 22:** Pin
- 23:** Pin

Arrows indicate the installation points on the rear door frame.

Figure 11-190

This exploded view diagram illustrates the assembly of the rear suspension and brake components. The main assembly includes the rear axle (9), brake caliper (3), brake disc (4), and various mounting hardware (1, 2, 7, 8). The diagram shows the relative positions of these parts, with dashed lines indicating the assembly path. The parts list on the right identifies the components by their circled numbers:

- 1: Bolt
- 2: Bracket
- 3: Brake caliper
- 4: Brake disc
- 5: Bolt
- 6: Bolt
- 7: Bolt
- 8: Bracket
- 9: Rear axle

Figure 19-705

This diagram illustrates the assembly of a vehicle's rear suspension and steering components. The main assembly includes a large cylindrical component (11) with a fan-like structure, a pump (1) with a gear (2) on top, and various hoses (4, 8, 10, 12, 13) and fittings (3, 5, 6, 7, 9, 18). The assembly is mounted on a frame (15) with various brackets (14, 16, 17) and bolts (14, 16). The diagram shows the relationship between these parts, with some components like the pump and hoses being separate from the main frame assembly.

Figure 22-340

This diagram shows an exploded view of a mechanical assembly. The main component is a vertical bracket with a horizontal flange at the top and a curved support at the bottom. Three callouts are present:
 - Callout 1 points to a small rectangular component with a circular feature.
 - Callout 2 points to a vertical rectangular plate with a slot.
 - Callout 3 points to a bolt with a hexagonal head and a threaded shaft.

Figure IJA-810

This diagram illustrates the exploded view of a mechanical assembly, likely a vehicle's rear suspension or steering component. The parts are numbered 1 through 30. The assembly includes a central frame (15, 16, 17), a lower control arm (18), a steering knuckle (19), a shock absorber (20), a coil spring (21), a sway bar (22), a sway bar end link (23), a sway bar bush (24), a sway bar pin (25), a sway bar nut (26), a sway bar washer (27), a sway bar pin (28), a sway bar nut (29), and a sway bar washer (30). The diagram shows the relative positions and assembly sequence of these components.
